Dear Copper Valley Telephone Customer:

We are writing to inform you of upcoming changes to your telephone bill that are being proposed to take effect on June 1, 2014. As we have reported many times in the past, the Federal Universal Service Fund is a program that has been in place for many years that is designed to ensure rural subscribers have access to telecommunications services at rates that are comparable to those provided in urban areas. The fund provides support to rural telecommunications carriers by helping offset the high-cost of providing telecommunications service in rural areas.

As part of a recent reform and modernization of this plan, the Federal Communications Commission has established a minimum residential local service rate that must be charged in order for a telephone company to continue to receive the full amount of federal support funds. This is being done to provide comparability between urban and rural rates. . Within the next few months, the FCC is expected to announce the new minimum rate that must be in effect by June 1, 2014. We expect the rate to be no more than \$19.00. To comply with this decision and to maintain the full level of funding, we must raise the rate for residential local phone service from \$14.00 to the newly established minimum by June 1, 2014.

The Arizona Corporation Commission will be holding a public hearing on this request for change in rates on March 27, 2014 at 1:00 p.m. The formal notice is attached and is being mailed to all Copper Valley residential customers. This notice provides additional information about the application including the location for this hearing.

We value your business and if you have questions about this, you may contact us at (800) 421-5711.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven D. Metts".

**(Docket No. T-02727A-13-0458)**

On December 19, 2013, Copper Valley Telephone, Inc. ("Company") filed with the Arizona Corporation Commission ("Commission ") an application requesting authority to increase its residential monthly basic local access line rate from \$14.00 to the lower of \$19.00, or the Federal Communications Commission's ("FCC") approved residential rate floor.

On November 18, 2011, the FCC issued a comprehensive new Order. Among other things, the FCC's Order establishes that in order for the Company to continue receiving federal support funds, the Company's local residential monthly service rates must be increased to floor rates. The FCC determines the floor rate annually. If the Company's rates are not increased to the floor rate, the amount of federal support funds the Company receives will be reduced dollar-for-dollar for each customer by the difference between the existing local rate and the new FCC floor rate. The new FCC floor rate was not available at the time the application was filed, but is expected to be known in the first quarter of 2014.

The Commission's Utilities Division ("Staff") is in the process of analyzing the application, and has not yet made any recommendations regarding the Company's proposed rates. The Commission will determine the appropriate relief to be granted based on the evidence presented by the parties. The Commission is not bound by the proposals made by the Company, Staff, or any intervenors. Therefore, the final rates approved by the Commission may be higher or lower than the rates requested by the Company.
